

The Gentles Ecological Sanctuary

As part of the family legacy, the Gentles will purchase remote private property to establish an ecological sanctuary in Mike and Aileen’s name.

We intend to work with, or parallel to, accredited NGOs and the provincial government to:

- protect and rebuild ecologically sensitive land,
- preserve and expand subalpine wildlife corridors, and
- safeguard existing waterways and wetlands.

By way of example, the region in British Columbia just west of Williams Lake and Quesnel is pictured:

Within just a small region, there are already three Provincial Parks, two properties owned by Ducks Unlimited, five properties owned by The Nature Trust of BC, and three properties currently for sale, all surrounded by Crown Land.

With the purchase of just one property, we will hope to tie together the efforts of countless Canadian conservationists: to make a substantial contribution to preserving the wilderness that Aileen and Mike loved.
